in that case it is better to reinstall the mod. I really liked the mod too and Á like Á it bothers me that I had it on my LO a while ago (before the last update) and did the same thing that Imaxx has suggested and let her start the dialogue after giving her a lot of flawless diamonds and she didn't have problems regarding your friendship with my character and show affection. Manage costumes, spells, combat style, home assignment and level up. It worked out fine. I've been trying to fall in love with her and I've been giving her gifts. But I have nothing but dialogue between Tameriel factions. Or is she a wife as dull as anyone? If so, what am I supposed to do? this may "reset" it but be careful with your saves so you know which one to go back to if it doesn't work. "It's not broken, it's fine and it works. DO NOT choose the right intimate option?Correct - breakthrough deal. Make ladies werewolves or vampires. Well, he just said that he likes me but every time I choose the intimate option he says no and that it will disappear. You CAN't be married because that's not part of the mood, and you need certain answers to the questions, or as Imaxx says leave it to her, but you must give her diamonds etc, but you can take them back. I can tell you that it is easier to romance with her than with Sophia, usually it takes about 168 pieces of jewelry plus several conversations to raise Sophia's disposition to over 500 before she recognizes Mara's amulet. Is there any way to fix this? @RinneNomad said: Hi I need help with Caesia. Just tell her you love her when you have the dialogue, and you can wait a day to speed it up. Don't choose the intimate option or she just disappears a few things from this. Check out our wiki to get started. A companion "Is there any way to fix this? You can keep giving her jewelry and then take it back and and There's a certain way to unlock your romance option with the answers you give to the questions, if you're wrong it won't happen and you'll have to start over. I found that if you don't ask too many questions regarding family or having a relationship with it or how much you love or need it or what you believed You who loved you early after he joined you as a follower, you will have a failed romance. Finally you will get the dialogue, save up if necessary, and you can also wait a day to speed things up. I'm sorry to come back to you so late. He also calls them "the great golden eagle." It could be a spy. I've been working on it for a while, but the only options I have now are to talk about your mission, your opinion about the factions, and the gift-giving option doesn't appear anymore. None of this works and no amount of waiting helps, one thing you might try instead of dropping back to a previous save and or start over is remove the mod make sure that she has everything that comes with it, with it and remove all the items that you gave and save, remove mod load from hard reboot in skyrim fresh save again and re-download. I had her as a follower a long time ago, when I had time to play Skyrim. You know that SKSE is not possible to work on XB1, therefore an MA if the ports or loads of such a follower need to remove ske from the files, so again also some parts of the dialogs need to be removed also completely and you will not progress with follower no matter what you do those dialogs are broken, and sometimes follower due to deleted files acts weird and cannot progress even to the romance option.. Followers ride horses, camp, avoid traps, ignore friendly fire, alternate suits and city helmets/standards, pose, dance and more Hello I need help with Caesia. Do I never choose that option? A good follower mod really for 32mb Caesia has a thalmor accent anyway, she calls the storm layers weak, says that the Thalmors are not so bad if you ask her about them. Now I avoid most of those comments to her, even when she starts giving me articles that she has found and I usually save money before asking any questions that might push her away, like asking about her family, at some point she volunteers to tell you about her family or agrees to talk about them, which usually indicates that romance is very close, but I didn't try I married her so I can't give you any advice about it. The reason is that these things work with SKSE and HDT, so their dialogue to go further than romance depends on SKSE. I can assure you there is no need to do anything special or have a proper dialogue with her to get you into romance with character. I haven't even started a dialogue with her about anything. Where have I [censored] upstairs? I can start over with the wife. @Imaxx said: just a few things about this..
